

THE WHITE HOUSE

WASHINGTON

May 8, 1987

Congratulations and best wishes to the Trustees, Directors and supporters of the Traffic Improvement Association of Oakland County on the occasion of the 20th anniversary of the Association's founding.

TIA has made significant contributions to the improvement of traffic safety, not just in Oakland County, but by its example and teachings throughout the State of Michigan, the United States, and in several foreign countries.

It is this exceptionally broad and high level of support from public officials, business leaders, and the news media which I am told has been the most important factor in the success of the Association's efforts. Working together for traffic safety has paid off for you and for many others.

Please keep up this important service.

Ronald Reagan
